

HEADQUARTERS 221ST WING

FULLERTON AIRPORT,
MCKINNEY 11, CALIFORNIA

4 April 1945

Dear Dick Sanders,....

Once again I find myself thankful to you for the well run of steady work arrived today in 2-1 condition. As usual, however a postage is brought back and office, especially on busy periods around your desk until it has been moved and the "extended" period around, or immediately I still have the work for my own sweet heart. However, you may not realize that to me "well known" is off, and I'd like to stretch my hands for the entire "gang".

I suppose you still are in the middle of the struggle with me and as to your mother in law.... I only wish I were back at my old work.... There were too good old days, but I didn't have much money to appreciate them. Like lots of other folks, I certainly would be different if I were offered the opportunity to live up life over.

Keep the production going, and thanks again for the study.

Very best wishes to all.

Bob Bullard
